

**JACKSON COUNTY RURAL ELECTRIC  
MEMBERSHIP CORPORATION**

**Appendix “A”**

A **Power Cost Adjustment (PCA)** applies to all appropriate retail Rate Schedules and passes through the financial impacts of changes to the wholesale base rate tariffs and purchased power tracking factor that have not otherwise been included in the determination of the above-listed base rate schedules.

Calculation of Power Cost Adjustment (PCA):

Purchased Power Base Rate Adjustment <sup>(1)</sup>	\$0.000000 per kWh
Purchased Power Tracking Factor Adjustment <sup>(2)</sup>	<u>(\$0.003827) per kWh</u>
<b>Power Cost Adjustment (PCA)</b>	<b>(\$0.003827) per kWh</b>

<sup>(1)</sup> Purchased Power Base Rate Adjustment – Passes through the changes to wholesale base rate tariffs that have not otherwise been included in the above-listed retail rate schedules.

<sup>(2)</sup> Purchased Power Tracking Factor Adjustment – Passes through the quarterly changes to the wholesale purchased power tracking factor that have not otherwise been included in either the above-listed retail rate schedules or the Purchased Power Base Rate Adjustment.
