

JACKSON COUNTY RURAL ELECTRIC MEMBERSHIP CORPORATION

Schedule "G" – General Service

Character of Service - Alternating current, sixty Hertz, at a standard voltage supplied by REMC.

Availability - Available to any account with total transformer capacity requirements of 2,500 kVA or less.

Basic Service Charge:

\$ 45.00 per month for single-phase service at 120/240 volts

\$ 65.00 per month for poly-phase or other single-phase service

Year-Round (Flat) Pricing

Energy Charge ⁽¹⁾

\$ 0.045560 per kWh

Demand Charge

\$ 10.00 per kW billing demand

kVAR Demand Charges

\$ 2.00 per kVAR billing demand

⁽¹⁾ See Appendix "A" for energy charge adjustments.

Approved by the Board: 12/15/2022

JACKSON COUNTY RURAL ELECTRIC MEMBERSHIP CORPORATION

Schedule "G" – General Service

TERMS AND CONDITIONS OF SERVICE

Demand Charges - kW billing demand shall be the maximum average kW demand for any period of fifteen (15) consecutive minutes during the billing period. KVar billing demand will be determined by trigonometric calculation using the peak fifteen (15) minute kW billing demand and the average power factor for the period.

Energy Charge – An account will be billed Energy Charges according to its Year-round pricing.

Metering and Billing – Appropriate metering will be installed by REMC. At times reasonable estimates will be made due to the unavailability of needed billing determinants. kWh usage may be prorated between billing rate periods.

Minimum Monthly Charge - The minimum monthly charge shall be the Basic Service Charge.

Terms of Delivery – The charges under each rate schedule are based upon the supply of service through a single delivery and metering point, and at a single service voltage. If service is supplied to the same consumer through more than one point of delivery or at different service voltages, the supply of service at each delivery and metering point and at each different service voltage shall be separately metered and billed. Each family residential unit shall be served separately. Service is supplied in accordance with rules prescribed by the Indiana Utility Regulatory Commission and also the Bylaws and the Rules and Regulations of Jackson County REMC.

Limitations on Connected Equipment – Jackson County REMC may require corrective measures or devices for any motor or other connected load that in the opinion of REMC will cause undue voltage fluctuations to other customers. Operation of any motor in excess of ten (10) horsepower must be approved by REMC and may continue only at the discretion of REMC. If three-phase service is supplied, all motors in excess of ten (10) horsepower shall be connected three-phase.

Consumer Facilities – All equipment and facilities beyond the metering point shall be furnished and maintained by the consumer.

Resale – No resale of power purchased under these schedules is permitted.

Line Extension Cost – Line extension policies may require payment of extension costs if added facilities are required solely to provide requested service. All necessary equipment will be furnished, owned, and maintained by REMC.

Late Payment Charge – If a bill is not paid by the due date, it shall become a delinquent bill and a late payment charge may be added in the amount of ten percent (10%) of the first three dollars (\$3.00) and three percent (3%) of the excess of three dollars (\$3.00).
