Minimal change in retail rates for January 1, 2026

Jackson County REMC will adjust its retail metered rates based upon a pending increase in the cost of purchased electricity that is being charged by Jackson's power supplier, Hoosier Energy, Inc and to cover the escalating costs and inflationary pressures in providing safe and reliable electric service to our members.

The \$.015708 per kWh power cost adjustment stems from an upcoming January 1, 2026, quarterly adjustment in Hoosier's power cost tracker due to the varying costs for energy fuels, market power purchases, and other highly fluctuating expenses.

Effective January 1, 2026, the power cost adjustment will change from \$.015697 per kWh to \$.015708 per kWh.

Jackson County REMC is a member-owned not for profit cooperative providing electric and broadband services to its members.
