JACKSON COUNTY RURAL ELECTRIC MEMBERSHIP CORPORATION

Appendix "A"

A **Power Cost Adjustment (PCA)** applies to all appropriate retail Rate Schedules and passes through the financial impacts of changes to the retail and wholesale base rate tariffs and purchased power tracking factor that have not otherwise been included in the determination of the above-listed base rate schedules.

Calculation of Power Cost Adjustment (PCA):

Purchased Power Tracking Factor Adjustment [2]	$0.002571 per kWh
Power Cost Adjustment (PCA)	**$0.002571 per kWh**

[1] Base Rate Adjustment – Passes through the changes to retail base rates that have not otherwise been included in the above-listed retail rate schedules.

[2] Purchased Power Tracking Factor Adjustment – Passes through the quarterly changes to the wholesale purchased power tracking factor that have not otherwise been included in either the above-listed retail rate schedules or the Purchased Power Base Rate Adjustment.
